# INTEREST TABLES;

IN WHICH IS SHOWN

## The Interest on any Sum

From \$1 to \$10,000,

#### AT 6 AND 8 PER CENTUM PER ANNUM,

FROM

1 Day to 91 Days,—from 4 Months to 11 Months,—and from 1 Year to 6 Years,—all consecutively,

BOTH FOR

360 DAYS AND 365 DAYS TO THE YEAR.

CONSTRUCTED ON A PLAN ENTIRELY NEW, BY

GEORGE OATES.

Philadelphia:

PRINTED FOR THE AUTHOR. STEREOTYPED BY L. JOHNSON.

1843.

4344 215-54

HG1628

Entered according to Act of Congress, in the year 1843, by

George Oates,

in the Clerk's office of the District Court of South Carolina.

Gift.

### PREFACE.

In submitting to the public the following Tables of Interest, the author is fully aware that he has been treading a beaten track, and that his essay has been made on a subject that is almost exhausted. The counting-houses and offices of our Merchants, Bankers, Brokers, and Lawyers, for whose more especial use such Tables are designed, are already supplied with valuable productions of this description, from the respective merits of which it is not his purpose, in the slightest degree, to detract.

Encouraged, nevertheless, by the flattering approval of valued friends, and still more by the numerous testimonials which have been so cheerfully extended to him, by mercantile and banking establishments of the highest standing in the country, he has ventured to bring before the public the result of his labours, in the confident belief that *some* of the improvements he has introduced in the construction of his Tables will be found essentially useful.

By the adoption of the Decimal system, and by CONDENSING INTO THE SMALLEST POSSIBLE COMPASS the interest on any sum from \$1 to \$10,000, (at 6, 7, and 8 per cent. per ann.), computed by days, months, and years, for 360 days, and 365 days to the year, the author feels assured that he has given a character of simplicity, conciseness, and completeness to his Interest Tables, not to be found in any that have preceded them, while at the same time the most implicit reliance may be placed upon their accuracy. The size of the volume will be found extremely portable and convenient; while the low price at which it is offered (compared with any other works of the kind that have yet appeared)

places it within the reach of all who may require such a publication.

The author begs leave to tender his warmest acknowledgments to those gentlemen who, after full examination, have borne such strong and willing testimony to the merits of his undertaking, and in the publication of their names\* he would assure one and all, that he will ever cherish the most grateful recollection of their consideration and kindness.

#### GEORGE OATES.

Philadelphia, Jan. 12, 1843.

#### EXPLANATION OF TIME TABLE.

GENERAL RULE.—The number of days from any day in a month in the first or left hand column, to the same day of any other month running horizontally, is specified by the figures placed under that month.

#### Examples.

How many days from the 10th January to the 10th July?

Turn to January in the left hand column, and move from left to right, past February, March, April, May, and June, to July, under which are found the figures 181,—the required answer.

Find the number of days from the 7th April to the 19th November.

From the 7th April to the 7th November are 214 days; to these add 12, the difference between 7th and 19th, and 226 is the number sought.

and 19th, and 226 is the number sought.

Find the number of days from 27th March to the

14th September. From 27th March to 27th September are 184 days; from these deduct 13, the difference between 14th and 27th, and the number sought is 17t days.

date to a preceding one, instead of making a retrograde calculation, simply reverse the question.

Example.—How many days from the 25th December to the 14th May preceding?

From 14th May to 14th December are 214 days; to these add 11, the difference between 14th and 25th, and 225 is the answer.

N. B. In leap-years One must be added to the number, after the 28th February.

#### EXPLANATION OF THE INTEREST TABLES.

In the first column are the figures 1 to 10, and which represent any sum from \$1 to \$10,000. The second is the unit column, and shows the interest on any sum from \$1 to \$10. The third is the tens column, and exhibits the interest on any sum by tens from \$10 to \$100. The fourth is the hundreds column, and gives the interest on any sum by handreds, from \$100 to \$1000. And the fifth or thousands column, shows the interest on any sum by thousands, from \$1000 to \$10,000.

#### Examples.

Show the interest on \$9876 for 1 day, at 6 per cent., 360 days to the year.

Turn to the first table, and in the

Chousands Inndreds	column,	opposite	the	 9 8	••	\$1.50 0 13.3 1 2
Γens		**		 -	**	1.4
Jnits		••		 6	••	1
						\$1.64.6
				Εa	nal i	0 \$1 65

Show the interest on \$4759 for 86 days at 8 per cent., 365 days to the year.

Turn to table, (8 per cent.,) 86 days, (365 days,)

Thousands	column,	opposite	the	figure	4	are	\$75.39.7
Hundreds					-7		13.19 5

## TESTIMONIALS.

The Author of this work has great pleasure in laying before the public the following testimonials, which he has had the honour to receive from gentlemen and firms of the highest respectability in the country. The first, is a letter of introduction (given to him by Thomas Drown, Esq., Cashier of the Shawmut Bank, in Boston,) to the cashiers of the banks in that city, and is referred to by other gentlemen, to whom the Tables were subsequently submitted for their inspection.

Boston, Nov. 26, 1841.

SIR,—Allow me to introduce to you Mr. George Oates, who would like to exhibit to you some specimens of Interest, Discount, and Premium Tables that have been submitted to my examination, and which appear so decidelly superior to any thing of the kind that has ever come to my knowledge, that it seems but a reasonable anticipation that they will supersede all others.

A few moments of your time only, will enable you to perceive from Mr. Oates' explanation, the immense advantages his tables possess over all that have hitherto been published.

Respectfully, your obed't. serv't.

THOMAS DROWN.

Bank of Charleston, S. C. Charleston, 10th Feb. 1842.

Mr. Oates having exhibited to me his series of Tables, I fully concur in the opinion expressed by Mr. Drown, in the within (above) letter.

A. G. Rose, Cashier.

I fully concur with Mr. Rose in expressing my opinion of the decided advantages of the Tables alluded to by Mr. Drown, and take great pleasure in expressing a wish they may be soon given to the public.

A. PORTER,

Cashier, Bank State of Georgia.

Savannah, 14th Feb. 1842.

Having examined Mr. Oates' Tables, I have no hesitation in stating my opinion of their superiority over any that I have seen for the purposes stated.

JAMES SMITH.

Cashier of Marine & Fire Insurance Bank.

Savannah, 14th Feb. 1842.

I have examined Mr. Oates' Tables, and take pleasure in expressing my opinion of their decided superiority over any Tables that I have seen.

H. W. Mercer,
Cashier of Planter's Bank of Georgia.

I concur in the opinions above expressed. R. R. Cuyler, Cashier, Central R. R. & Banking Co. Savannah, 17th Feb. 1842.

I have carefully examined the Tables of Mr. Oates, and fully concur in the foregoing opinions.

SAMUEL C. HOUSE,

Secretary, Savannah Insurance & Trust Co. Savannah, 17th Feb. 1842.

We have carefully looked over Mr. Oates' Interest and Exchange Tables, and feel assured that the simplicity of the arrangement and great usefulness of the calculations will render the work a standard one.

Andrew Low & Co.

Savannah, 17th Feb. 1842.

We have carefully examined Mr. Oates' Interest and Exchange Tables, and concur in the opinion that their simplicity and conciseness will render them of more value than any Tables we have yet seen.

ROBT. HABERSHAM & SON.

Savannah, Feb. 18th, 1842.

I have looked at the plans of Mr. Oates for the publication of a series of Tables in Federal and Sterling money, and fully concur with the opinions expressed by the gentlemen who have signed this paper. H. Soller,

Cashier, Union Bank, S. C.

Charleston, April 9th, 1842.

We have carefully examined Mr. Oates' Interest and Exchange Tables and fully concur in the foregoing opinions.

JAMES ADGER & Co.

Charleston, 9th April, 1842.

Augusta, 6th May, 1842.

The undersigned have examined Mr. George Oates' Interest, Discount, and Premium Tables, and have no hesitation in saying, that for convenient reference, conciseness, comprehensiveness, and ease of calculation, they are decidedly superior to any Tables yet given to the public.

J. W. Wilde,

Cash. Geo. R. R. & Bank'g. Co.'s Branch at Augusta.

> James W. Davis, Cashier of the Bank of Augusta.

ROBT. WALTON, Cashier, Augusta Insurance & Banking Co.

I. HENRY, Cash., Branch Bk. State of Georgia, at Augusta.

Joseph Milligan, Secretary, Georgia Insurance and Trust Co.

> PECK & DEARING, Exchange Brokers, Augusta.

John G. Winter, President, Bank of St. Marys.

H. Hutchison, President, Bank of Hamburg. We concur in the above, and have no hesitation in saying, that Mr. Oates' Tables of Interest and Exchange will be of great convenience to all that may require them.

HIGHAM, FIFE & Co. Charleston, S. C.

Mr. Oates having exhibited to me his series of Tables, and having examined the same in company with several directors of this bank, I cannot but concur in the foregoing recommendations.

HENRY TRESCOTT.

Cashier, State Bank, S. C.

Charleston, June 20, 1842.

Having examined Mr. Oates' Discount and Premium Tables, I concur in recommending them to the attention of the commercial community.

C. M. Furman,

Cashier, Bank of the State, S. C.

Charleston, June 21, 1842.

We fully concur in the above recommendations.

WILEY, LANE & CO.
HAVILAND, HARRAL & ALLEN.
TOWNSEND, MENDENHALL & CO.
MCCARTER & ALLEN.
GEO. L. BRYAN.
MILLER, RIPLEY & CO.
JOHN FRASER & CO.
CHARLES EDMONDSTON.

Charleston, S. C.

I have examined Mr. Oates' Tables, and

think them much more complete than any heretofore in use.

G. W. Stainback, Cashier, Branch Bank of Va.

Petersburg, 18th July, 1842.

I have examined Mr. Oates' Tables, and think them much more complete than any I have seen.

WM. CLARKE,

Cashier, Br. Farmer's Bank, Petersburg.

Petersburg, 18th July, 1842.

I fully concur in the foregoing certificate.
P. Durkin,

Cashier, Branch Exchange Bank of Va. Petersburg, 18th July, 1842.

I have examined Mr. Oates' Tables, and have much pleasure in expressing my opinion of their superiority over any Tables I have seen.

ROBERT LESLIE.

Petersburg, Va., 18th July, 1842.

We have seen Mr. Oates' Tables of Interest and Exchange, and they seem to be simple and promise much usefulness to merchants and others. Thomas Branch & Brother.

Petersburg, Va., 18th July, 1812.

I concur in all the foregoing opinions.

DAVID DUNLOP.

Petersburg, Va., 18th July, 1842.

We concur in recommending Mr. Oates' Tables. McIlvaine, Brownley & Co.

Petersburg, Va., 18th July, 1842.

I have examined Mr. Oates' Tables of Discount and Premium, which I think are of great value, and such have been much needed. I have also examined his Interest Tables, and consider them in some respects superior to any I have seen.

J. G. BLAIR,

Cashier, Farmer's Bank of Virginia.

Richmond, 19th July, 1842.

I have examined Mr. Oates' Tables of Interest and Exchange, and think they will be very useful to bankers, merchants, &c.
W. P. STROTHER.

Cashier, Exchange Branch Bank.

Richmond, 19th July, 1842.

We have examined Mr. Oates' Tables of Interest and Exchange, and fully concur in the above testimonials.

DUNLOP, MONCURE & Co.

Richmond, 19th July, 1842.

I have carefully examined the Tables of Discount, Interest, and Exchange, submitted by Mr. George Oates, for my inspection, and do not hesitate to recommend them to the favourable notice of the commercial community and others, as replete with useful information, being

simple in their arrangement, and concise in their detail.

John Bacon.

Philadelphia, Sept. 14, 1842.

I concur in the above. R. PATTERSON.

I have examined the plan for calculating Discount, Interest, &c., submitted by Mr. Oates, and consider it decidedly superior to any I have seen.

J. B. Trevor,
Cashier, Philadelphia Bank.

We fully concur in the opinions above expressed. W. Patton, Jr., Cashier, Farmer's & Mechanic's Bank, Phil'a.

WM. THAW, Cashier, Mechanic's Bank, Philad'a.

G. M. TROUTMAN, Cashier, Western Bank, Philad'a.

Browns & Bowen, Philad'a. E. W. Clarke & Co.,

Exchange Brokers, Philad'a.

Nevins & Robinson,

Exchange Brokers, Philad'a.

New York, October, 1842.

Mr. George Oates has exhibited to the undersigned some specimens of Tables, now in the press, of Interest, Discount, Premium, and Exchange—the plan of which we consider very happily conceived—and cannot doubt that their great utility in facilitating every kind of mer-

cantile and banking calculation, will insure the complete success of his undertaking.

## OPINIONS OF THE PRESS.

Oates' Interest and Exchange Tables. Constructed on a plan entirely new. By George Oates .- We have not only examined this work with considerable care ourselves, but have placed it under the eye of one thoroughly versed in such matters, and perfectly competent to judge of its usefulness and accuracy, who concurs with us in the opinion, that from the simplicity of the arrangement, conciseness, and great usefulness of the calculations, it must supersede all that have hitherto been published. In these tables are shown the interest on any sum from \$1 to \$10,000, at 6, 7, and 8 per cent. per annum, from one to ninety-four days, from four to eleven months, and from one to six years, all consecutively, both for 360 and 365 days to the year. Also, the value of Domestic Exchange for any sum from \$1 to \$10,000, at any rate of premium and discount from 1th of one per cent. to 10 per cent.; and how any sum may be invested or absorbed in a bill of exchange at the same rates of premium and discount. Similar tables are also given of the value, in Federal money, of Sterling exchange, &c. The testimonials from bankers, brokers, and merchants, appended to the volume, are of the most respectable and

conclusive character, and furnish ample testimony in favour of the accuracy and value of the work.—Hunt's Merchant's Magazine.

Tables of Interest and Exchange, by Geo. Oates.-We can very conscientiously recommend this work, which has just made its appearance, to those whose avocations may render desirable such an auxiliary. By adopting the decimal system, and by condensing into the smallest compass the interests in any sum from \$1 to \$10,000, at 6, 7, and 8 per cent. per annum, computed by days, months and years, for 360 and 365 days to the year, a character of simplicity, conciseness, and completeness has been given to the interest tables not to be found in any work extant. There are besides four series of tables for facilitating the calculation of Domestic and Sterling Exchanges, on an entirely new plan, by which also may be ascertained the amount which will be absorbed by an investment at the different rates of exchange. Testimonials to the accuracy and superiority of these Tables are given from the officers of most of the banks and brokers in our Atlantic cities .- Morning Courier and New York Enquirer.

Oates' Interest and Exchange Tables.—A volume, with this title, has been published, and has the recommendations of some of our best and most experienced bankers. In point of compactness, it has much the advantage of the interest tables commonly in use, being prepared on a plan which condenses and simplifies the results. We commend it to the attention of all persons engaged in mercantile or financial operations.—New York Evening Post.

Tables of Interest, Exchange, &c., by George Oales.—A collection of tables for the purpose of simplifying the computation of interest on any sum from \$1 to \$10,000, at 6, 7, and 8 per cent., and for any time from one day to six years; tables for computing the value of domestic bills of exchange, from \$1 per cent. to 10 per cent. premium or discount, and tables for turning Federal money into Sterling, or vice versa, at all rates from \$1 of 1 to 10 per cent.

These tables are most convenient in their arrangement, and some of the most practical men in the country, who are far better judges in the matter than we can ever expect to be, hear testimony to the correctness of the calculations, and the high value of the compend to those who are engaged in commercial pursuits.—New York Commercial Advertiser.

Tables of Interest and Exchange. Constructed on a plan entirely new. By George Oales.—
This is one of the most valuable works which has ever been presented to the notice of the mercantile community. The Tables are constructed on novel and ingenious principles, and a great number of the most intelligent men in the country have expressed their opinion that for convenience of reference, conciseness, comprehensiveness, and ease of calculation, they are altogether unsurpassed. Every kind of mercantile and

banking calculation must be immensely factifitated by the use of these admirable tables, and we cannot have the slightest doubt that the work will meet the most extensive sale.—New York Herald.

Tables of Interest and Exchange, by George Oales.—This elaborate work is highly commended in the testimonials appended to it, for its accuracy and usefulness. It gives the interest on any sum from \$1 to \$10,000, at 6, 7, and 8 per cent. per annum, computed by days, months, and years, for 360 days, and 365 days to the year, also tables for the calculation of Domestic and Sterling Exchanges.—New York Journal of Commerce.

Oates' Interest and Exchange Tables.—We are indebted to the publisher for a copy of this invaluable work, and have no hesitation in commending it to the attention, patronage, and confidence of the public. These tables must be found infinitely convenient if not indispensable, to the merchant, the banker, and the man of business generally; and as their entire accuracy may be most implicitly confided in, we deem it scarcely necessary to commend them to all who are engaged in active business employment.—

New York Standard.

Tables of Interest and Exchange.—George Oates has published a work of very convenient form, very similar to Rowlett's in point of size, in which are shown the interest on any sum

from 1 to 10 thousand dollars, at 6, 7, and 8 per cent. per annum, from 1 to 94 days, from 4 to 11 months, and from 1 to 6 years all consecutively, both for 360 days and 365 days to the year. Also the value of Domestic Exchange, from \$1 to \$10,000, at any rate of premium and discount, from \$1 of 1 per cent. (by \$1ths) to 10 per cent.—and also the value, in Federal money, of Sterling Exchange, and how any sum may be invested or absorbed in a Sterling bill, at any of these rates of discount or premium; the whole on an exceedingly simple plan.—New York Express.

Tables of Interest and Exchange, &c. By George Oates.—This volume is accompanied by the testimonials of men in every way qualified to form a correct judgment concerning its merits, who certify to the correctness of its calculations, the convenience of its arrangement, and its decided general utility. It contains tables showing at a glance the interest on any sum from \$1 to \$10,000, at 6, 7, and 8 per cent. per annum, for any required time within six years, and also tables for computing rates of exchange and discount with the utmost correctness and facilitv. The whole is constructed upon a plan entirely new, and fitted by its simplicity and exactness to recommend itself strongly to all those engaged in active mercantile pursuits .-New York Tribune.

We have just examined a set of "Interest and Exchange Tables" which have been carefully digested and accurately calculated by Mr. George Oates. They consist of Interest Tables, on any sum from \$1 to \$10,000, at 6, 7, and 8 per cent., and for any divisions of time from one day to six years, calculated for 360 days as well as 365 days to the year. There are likewise, and these are valuable accessions, tables for ascertaining the value of Bills of Exchange at rates from 1 to 10 per cent. of either premium or discount, and also for turning any sum in Federal money to Sterling, or vice versa, at any of the rates of premium or discount, from 1 to 10 per cent. The whole is so exceedingly clear and perspicuous, that it cannot fail to receive extensive patronage in the mercantile world; and we cordially wish the work a most extensive circulation .- New York Albion.

Oates' Interest and Exchange Tables. A valuable Work for Bankers, Merchants, &c .- A most excellent publication has just issued from the Philadelphia press, and one every way entitled to confidence and patronage. We allude to " Tubles of Interest and Exchange, by George Oates," a gentleman who has devoted much time and labour to the undertaking. We have examined the work with some care, and believe it to be one of the best, in every respect, that has ever appeared upon the subjects named. Mr. Oates has prepared his tables with great care and accuracy—the type is distinct—the figure-work is all in clear characters, while the paper is good, and the binding substantial. The whole may be regarded as a labour-saving machine for merchants, bankers and business men generally. The calculations are for 365 days, as well as 360 to a year. This feature alone will prove of general advantage. It will also be seen that calculations for money at interest are given at various rates, 6, 7 and 8 per cent., according to the legal provisions of the different States.—Bicknell's Reporter.

Tables of Interest and Exchange.—This is a new practical volume by Mr. George Oates of this city. It exhibits the interest of any sum from \$1 to \$10,000 at different rates and for various periods up to 6 years,—also Domestic and Sterling Exchange Tables. The plan of this elaborate work is original, and, as it appears to us, the simplest and best yet devised. To bankers and importing merchants particularly it must be very valuable.—North American.

Oates' Interest and Exchange Tables.—This is a most excellent work. We commend it confidently and cordially to the mercantile community. It is the result of much time, labour, and experience, and appears to us almost invaluable for bankers, brokers, lawyers, &c. Hunt's Magazine, the highest authority in a matter of this kind, commends these tables in the most unequivocal language. The manner of getting up is also very creditable; the type being clear and distinct, the paper good and the binding substantial.—Pennsylvania Inquirer and National Gazette.
